

Delta Kappa Epsilon

PSI Chapter Additional Testing Program

Dear Parents,

We are proud to continue to work with PSI Chapter of DKE at The University of Alabama for their health and wellness drug testing program. The program tests all new pledges and a random selection of brothers. There are three test dates during each academic year.

If so desired, you may sign up your student for guaranteed testing. This would pull them from the random pool and ensure that they would be tested at all three test dates. If you would like your student to be included in this insured testing program, please complete the section below.

Student Name _____

Parent Name _____

Parent Signature _____ Date _____

By checking this box, I certify that I have informed my student that I have selected him for additional testing.

** Your student will continue to be tested per the policy and be subject to its guidelines until graduation unless you opt them out of this program by email or letter.*

** To maintain transparency and the integrity of the PSI Chapter's program, parents are required to inform their student if this option is chosen.*

Secure Test Results offers additional private, confidential testing services. If you are interested in any other testing services, please contact Dr. George B. Elder.
